Education

Bachelor of Science, Computer Science **University of North Carolina at Charlotte**

August 2019 – December 2022

- Concentration: Artificial Intelligence, Robotics, and Gaming
- Minor: Computer Engineering
- Honors: Summa Cum Laude
- Chancellor's List: Fall: 2019, 2020, 2021, 2022 | Spring: 2021, 2022
- Dean's List: Spring: 2020
- Relevant course work: ITSC 2214 – Data Structures and Algorithms, ITSC 3155 – Software Engineering, ITCS 4150 – Mobile Robotics, ITCS 4151 – Intelligent Robotics, ITCS 4152 – Computer Vision, ITCS 4156 – Intro to Machine Learning, ECGR 4101 – Advanced Embedded Systems

Core Competencies

- | | | | |
|-------------------------|--------------|-----------|--------------------------|
| • HTML/CSS | • Python | • Angular | • Google Workspace |
| • C/C++ | • MATLAB | • React | • Microsoft Azure |
| • C# | • MongoDB | • ROS | • Microsoft 365 (Office) |
| • JavaScript/TypeScript | • PostgreSQL | • .NET | |

Experience

Technology Analyst

Wells Fargo

February 2023 – Current

- Complete Unit Test cases to improve API code coverage from 40% to 95%
- Developed error handling and logging solution for an API to improve developer application insights
- Led small team of interns on a Power BI project for an application's technology suite upgrade
- Implement user interface changes that provide more insight into user's interaction and authentication patterns

Instructional Assistant (TA)

University of North Carolina at Charlotte

August 2022 – December 2022

- Schedule office hours and one-on-one meetings to ensure student success
- Prepare quizzes, homework, and exams to measure students' understanding of course concepts
- Organize presentations to review with students based on feedback from quizzes, homework, and exams
- Communicate student feedback to the professor to adapt course materials

Technology Program Internship

Wells Fargo

July 2022 – August 2022

- Developed complex user interfaces using Angular for internal tools under the Liquidity and Risk Management Department
- Prepared and presented at meetings with senior-level executives, developers and other interns
- Implement user interfaces apart of a new application that would increase productivity of senior managers
- Participate in Agile development practices

Organizations

Treasurer – IEEE Eta Kappa Nu

University of North Carolina at Charlotte

December 2021 – December 2022

- Re-establish Eta Kappa Nu Honor Society at the University of North Carolina at Charlotte
- Plan and execute events such as induction ceremonies and guest speakers for general body members
- Organize and manage funding for multiple events including induction ceremonies and guest speakers

Projects & Research

Guaranteeing Safety in Multi-Robot Scenarios

University of North Carolina at Charlotte

March 2022 – December 2022

- Develop algorithms to control Khepera IV robots in CoppeliaSim (formerly VREP) and the real-world
- Analyze research papers on control barrier functions and safety barrier certificates
- Implement safety algorithms using Probabilistic Safety Barrier Certificates on group of Khepera IV robots under direction of faculty

Certifications

AZ-900: Azure Fundamentals

Microsoft

March 2023

- Foundational level knowledge of cloud services and how those services are provided with Microsoft Azure
